

Ecoshield is a South Australian business that develops and manufactures innovative, top quality liquid flooring technology. We pride ourselves on our design, development and manufacture of environmentally friendly timber and concrete coating solutions for the industrial, commercial and domestic marketplace.

LATEST TECHNOLOGY

Today we specialise in floor coating systems that are at the forefront of liquid flooring technology.

We use the highest quality raw materials from across the globe to formulate market leading floor coatings.

WHY CHOOSE ECOSHIELD'S CARBON COAT?

- Superior abrasion resistance
- Latest Polycarbonate waterborne technology
- Superior clarity
- Early occupancy (2 days at 25 degrees)
- Very good rejection resistance
- Very good edge bonding resistance
- Option of single or 2-pack
- Non-toxic and VOC free hardener additive to achieve abrasion resistance
- Excellent UV resistance
- Very good yellow resistance
- Very good scuff resistance
- Low odour
- No breathing apparatus required to apply
- Self priming, can be used without sealer
