

Ecoshield is an Australian owned business that develops and manufactures innovative, top quality liquid flooring technology. We place a strong emphasis on health and safety, which is why our concrete products are environmentally friendly and non-toxic.

If you are looking for advice on product selection or application, ask a Ecoshield professional. We are always available to share our expertise to ensure you are more than satisfied with the results.

Our concrete coatings and liquids have been developed for the residential, commercial and industrial marketplace. Ecoshield have a full range of liquids and consumables such as diamond tools and coating application equipment.

NON-SLIP SOLUTIONS

Ecoshield provides non-slip flooring systems that are easy to apply and meet Australian Standards P rating classifications, specified by Architects and Engineers. We have a non-slip solution for every concrete flooring requirement.

We have developed a coating that is ready to use straight from the bucket. It is ideal for outdoor non-slip surfaces and achieves a P5 slip rating.

DURABLE POLISHED CONCRETE PRODUCTS

Ecoshield polished concrete systems are easy to use, fast curing and extremely tough. We produce all of our products from pure raw materials. Our densifiers are not diluted or filled with silicone, we offer only high solids polished concrete liquids.

Ecoshield Grout is an acrylic resin with great adhesion to concrete and does not "pop out" like other brands.

Our range of quality sealers can create any sheen level required without compromising durability or stain resistance.

Having difficulty grinding your concrete floor? Our range of grinding lubricants and concrete dissolving chemicals make it easier to cut floors.

A WORLD FIRST IN CLEAR TOP COATS

Ecoshield have developed the world's first water-based Polycarbonate coating to replace the limited performance of polyurethane. Our Polycarbonate top coat is the most scratch resistant and 100% UV stable clear coat available.

Polycarbonate is the same material used to make jet aircraft windshields and bullet proof glass, so it is extremely durable with outstanding clarity.

We have developed these top coats to be fast curing with good working times so that jobs can be completed in just one day. Our clear top coats provide a super hard finish to create a brilliant polished concrete look in Matte, Satin or Gloss.

POLYASPARTIC FLOOR COATINGS

Ecoshield's Polyaspartic is the most durable, abrasion and chemical resistant coating available in the Australian marketplace. It will out perform any other coating by any measure, guaranteed.

Our Polyaspartic can be used on interior, exterior or any other concrete flooring applications. It is suitable for a wide range of concrete uses.

EPOXY FLOOR COATINGS

Eco Epoxy Shield is our premium, 100% solids 2-pack epoxy that is extremely yellowing resistant.

Our epoxy does not contain volatile solvents, harmful fillers or extenders making it a pure epoxy resin designed for safe use on concrete floors.

Eco Epoxy Shield has excellent adhesion to concrete and produces a high film build that flows flat, creating an aesthetically pleasing surface with no unsightly application marks.
